

# Open Call for Games

Themed "Playground City. Meeting people, connecting spaces, overcoming borders", the international Urban Games Festival playin'siegen will take place for the third time from **August 13 - 15, 2021**. We will be playing games in the urban space of Siegen's center.

You are a **game developer**, (**game**) **artist** or generally a **creative mind** and have an original **game or art concept**, a playful **performance** or a **great workshop idea** with which you would like to enrich our festival? Then get in touch and become part of turning the city into a giant playground.

## **We would like to see offers**

that make the urban space accessible in a playful way and maybe even open up a whole new perspective on it, assigned to at least one of the elements of the event motto "**Meeting people, connecting spaces, overcoming borders**", which do not pose a high risk of injury, which exclude vandalism of any kind to the surroundings.

## **Please let us know what kind of location is needed for your offer.**

We want to remind you that we are still in a **pandemic situation** and that further restrictions can occur on short notice.

## **Support from our side:**

We can provide you with **volunteers** on the festival days and up to a certain amount of **technical support** if needed.

If you want to send us your concept / idea or other interesting suggestions, please send us an email to **call@playinsiegen.de!**

We leave it up to you in which form you want to present your concept to us. The deadline for submissions is **June 30, 2021**, and our content team will review all proposals and let you know as soon as possible if your concept fits into the program.

We look forward to meet you and your idea, so start planning and join us on an evolutionary journey of play!

**The earlier we hear from you, the better!** Then we have enough time to plan and embed your idea into our concept.
